Adding custom aspects from SIMS

Edukey Education Ltd

Adding custom aspects to IEP & Provision Map Writer

IEP & Provision Map Writer will pull through all Capita's standard SIMS aspects as default but if you wish to include custom aspects which your school has created then they need to be member of a sub category called Edukey (with Xporter as the main category).

Main Category = Xporter

Sub Category = Edukey

This document leads you through how to create an Xporter category & Edukey sub category and how to add aspects to these categories.

Right click:

Enter Xporter as Category Type:

Category Details Save Ondo 1 Category	
1Category System Imported	Key Stag
CES Assessment Services	

Right click your new type:

Name your category 'EduKey':

Category Details Save Ondo 1 Category
1Category System Imported
CES Assessment Services System System Subject Subject Subject Subject CES Training Subject CES Training Subject CES Training Discover

Now you need to add the aspects to your category:

Search for your aspect and double click on it:
